801 Film Club Experience

The film industry is full of Hollywood-style commercial movies, thrilling and exciting, but too clichéd, while 7801 Film Club provides some brand new experiences: a collection of non-mainstream films, an experimental way of cinematic expression, and the recordings of oppressed groups that are hidden from the glamour of the city. The film might not be a special-effects medicine for society, but film is becoming the new philosophy of artistic and political expression. I couldn't be more grateful to experience all this with Kate and the Film Club!
